Simple operation

Height-adjustable coffee spout

Fine foam frother

Compact elegance

IMPRESSA C50

Simple and elegant

Turn, press, enjoy – that's how easy it is to enter the world of IMPRESSA! With the one-switch operating concept of the Rotary Switch and the 11-language plain text display, it's easy to create the perfect coffee every time. Thanks to the high-performance conical grinder, the beans are always freshly ground. The simple, compact design with its elegant combination of matt and gloss black gives the IMPRESSA C50 an imposing yet understated look in any surroundings.

Simple operation

Thanks to the one-switch operating concept of the smart Rotary Switch and the 11-language plain text display, you are just one touch of a button away from the perfect cup of coffee. The machine is also designed to be easy to program and care for.

Height-adjustable coffee spout

The height of the coffee spout can be adjusted between 65 mm and 111 mm to allow any size of cup to be used, from small espresso cups to large coffee cups. This prevents the coffee from splashing on the machine and produces a perfect, velvety crema.

Fine foam frother

The revolutionary fine foam technology ensures unique milk foam quality with a fine, feather-light consistency. It's the perfect way to give the finishing touch to your favourite beverages.

Compact elegance

The IMPRESSA C50 is a combination of striking clean lines, compact dimensions, high-quality materials and uncompromising workmanship. Compact enough to fit anywhere, it cuts a striking figure with matt and gloss surfaces in understated black.
